

SOP Multi Factor Authenticator (MFA)

Login

Login KYPAS sebagai user. Akan muncul pop-up untuk scan qr code di aplikasi Microsoft Authenticator App dan input 6 digit code otp dari Microsoft Authenticator

The screenshot shows the KYPAS login interface. At the top, the KYPAS logo and tagline "Keep Your Password Secure" are displayed alongside the Telkom Indonesia logo. A "SIGN IN" button is visible at the bottom. A "Don't have an account? Sign Up" link is located below the sign-in button. A "Autentikasi Multifaktor (MFA)" pop-up is centered on the screen. This pop-up contains a QR code for scanning, a "Download Microsoft Authenticator App" button, a "List recovery code" link with a "Copy" button, a "6-digit code" input field, a checked "Trusted device" checkbox, and a "Verify OTP" button. A "Download SOP" button is also present in the top right corner of the pop-up.

Autentikasi Multifaktor (MFA)

Download SOP

Download Microsoft Authenticator App

List recovery code [Copy](#)

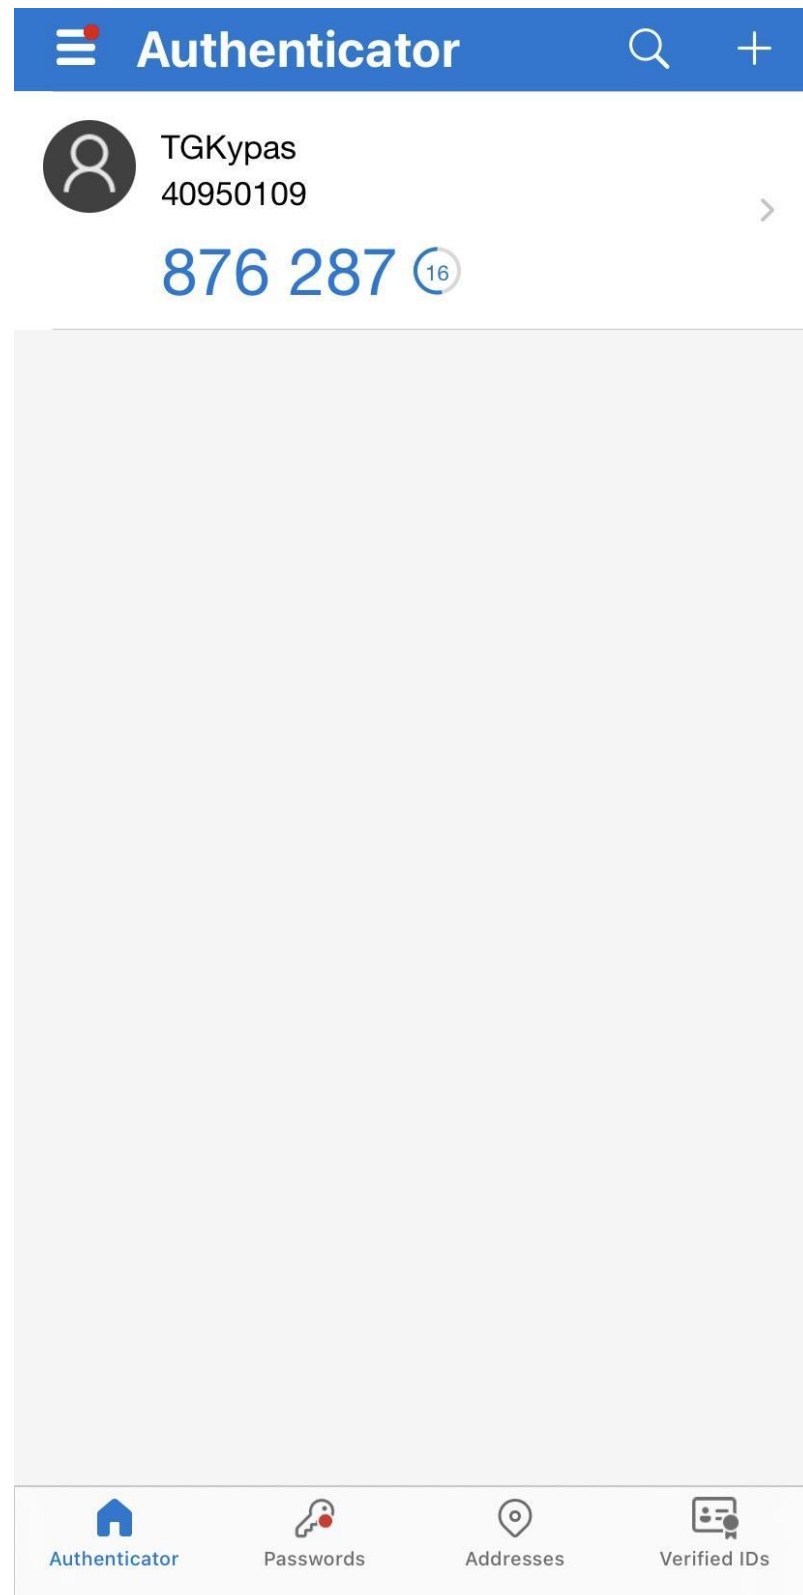

6-digit code

☒ Trusted device [Verify OTP](#)

[SIGN IN](#)

[Don't have an account? Sign Up](#)

Microsoft Authenticator App

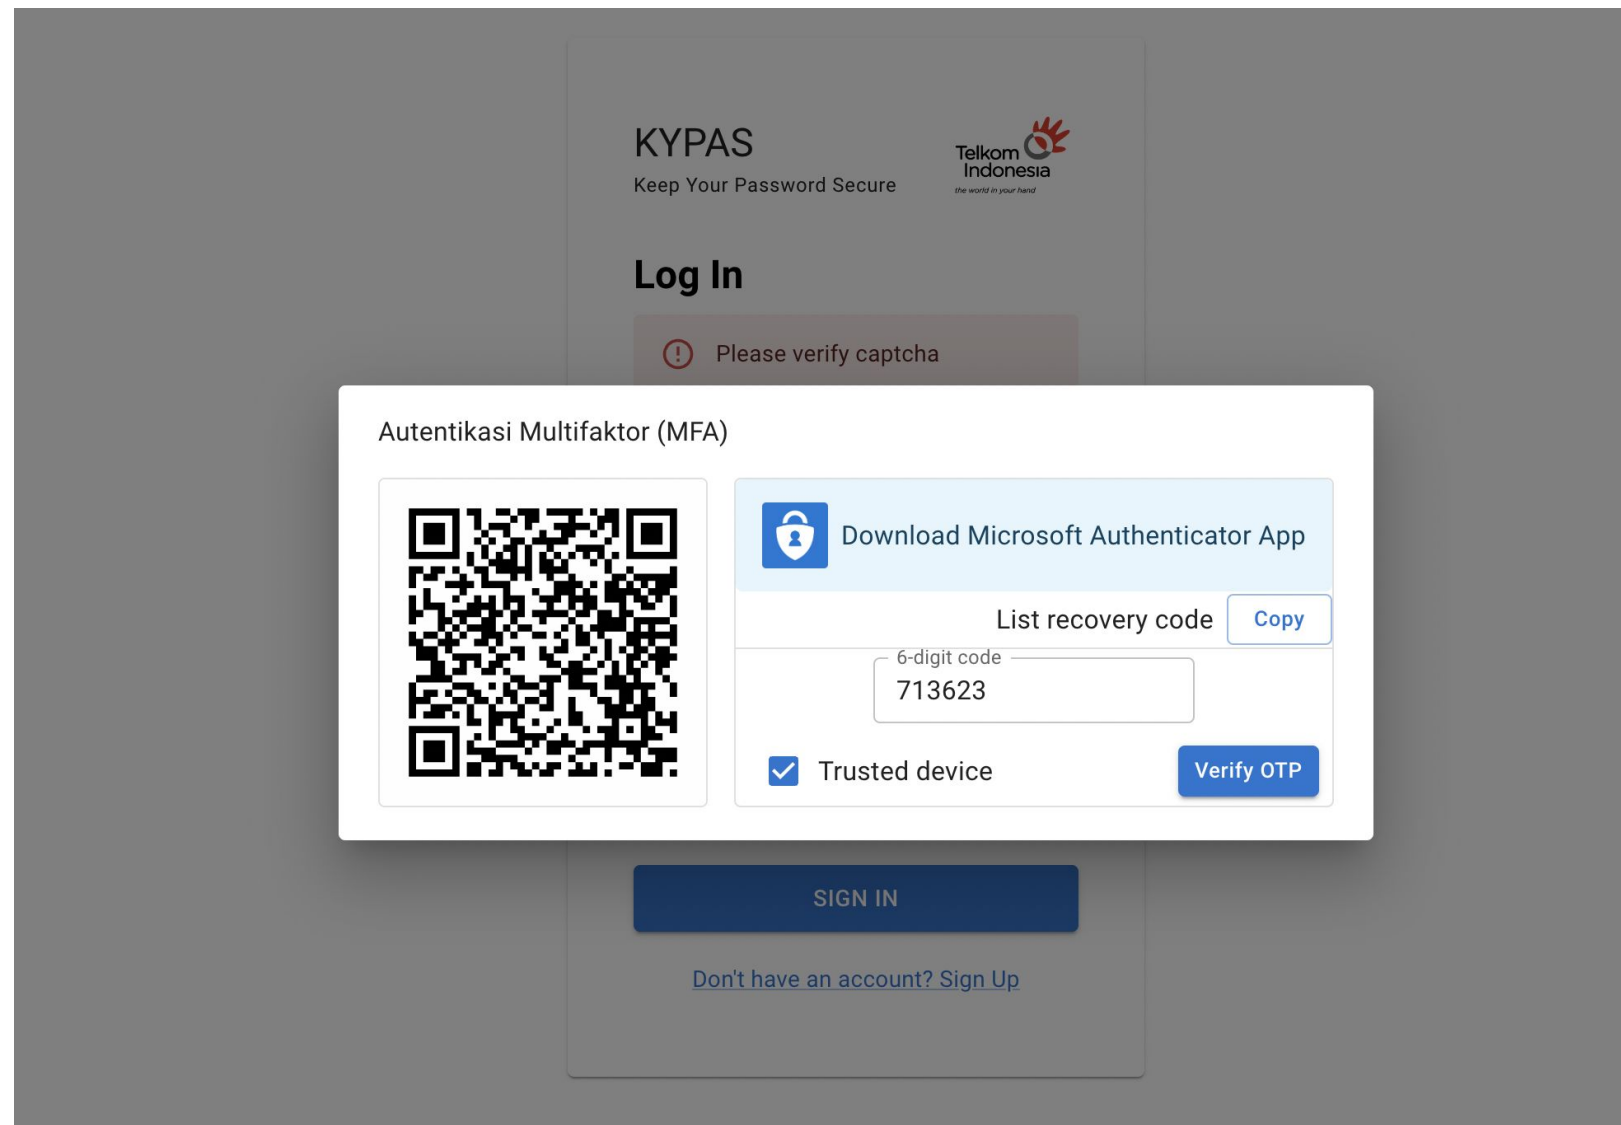

Buka aplikasi Microsoft Authenticator pada HP Android atau iOS anda lalu scan barcode pada tampilan login di web TGKYPAS.

Maka akan muncul code verifikasi OTP seperti pada gambar berikut:

Verify OTP

Masukkan kode OTP dari aplikasi Microsoft Authentication.

The screenshot shows the KYPAS login interface. At the top, it says 'KYPAS Keep Your Password Secure' and 'Telkom Indonesia the world in your hand'. Below this is a 'Log In' button. A message 'Please verify captcha' is displayed. A modal window titled 'Autentikasi Multifaktor (MFA)' is overlaid on the login form. The modal contains a QR code on the left. On the right, there is a link to 'Download Microsoft Authenticator App', a 'List recovery code' section with a 'Copy' button, a '6-digit code' input field containing '713623', a checked 'Trusted device' checkbox, and a 'Verify OTP' button. Below the modal, there is a 'SIGN IN' button and a link 'Don't have an account? Sign Up'.

- Button Verify OTP untuk melanjutkan login ke dashboard
- Checkbox Trusted Device untuk save IP Address agar tidak memasukkan OTP ketika akan login kembali
- Copy List recovery code untuk menggantikan kode OTP agar user tidak perlu lagi menggunakan aplikasi Microsoft Authenticator untuk login kembali Ketika beda IP Address/Device

Tampilan Dashboard

Setelah berhasil login, klik profile > MFA
